MAKING MEDICINES WORK FOR PEOPLE

University of Pittsburgh
School of Pharmacy
Dear Friends,

Thank you sincerely for your gifts of your treasure and your time. Your gifts make it possible for students and faculty to extend their impact in ways that would otherwise not be possible. The School of Pharmacy’s goal is to provide the innovators—and the discoveries—to solve the complex medication-related problems of today and tomorrow. The School is committed to improving health through excellence, innovation, and leadership.

With your support, students are learning to become innovators and leaders. This publication features several scholarship recipients and showcases a few of their accomplishments. With your support, our faculty members are working to solve the complex medication-related problems that face us. Together, we are making a difference.

Sincerely,

Patricia D. Kroboth
Dean
Education of Pharmacists and Pharmaceutical Scientists

Your support makes it possible for students to learn through experiences.

Thank you.
Indrani Kar outlined an interprofessional curriculum to expand and enhance wellness and health promotion education among students of the health sciences.

SCHOOL OF PHARMACY ALUMNI SOCIETY BOARD SCHOLARSHIP
